

CowColostrum Plus

IMMUNE SUPPORT CHEWABLES

120 count
Chewable Tablets

BENEFITS

- Rich in immune and growth factors
- Natural immune booster
- Complemented with the advantages of DIB (Digestive Intolerance Blend)
- Beneficial in boosting the immunity of the elderly

CowColostrum Plus

Suggested Dosage:
2 Chewable tablets once a day after meals

Colostrum is nature's perfect first food. Colostrum is found to be richer in immune factors and growth factors when compared to normal milk. It helps protect the body against diseases and in turn enhances human health.

CowColostrum Plus contains colostrum enriched with **Immunoglobulin G (IgG)**. IgG is the most abundant of the immunoglobulins in colostrum and is considered to be one of the most valuable components. IgG has the properties to bind various pathogens thus protecting the body from diseases.

DIB is a blend of ingredients namely **Lactase and Protease**. Lactase enzyme improves digestion of milk sugars / lactose and Protease enzyme improves digestion and absorption of amino acids. These enzymes help prevent lactose and/or protein intolerance in individuals with these conditions.

CowColostrum Plus being a chewable tablet, absorption begins in the mouth and continues in the gut as well. This allows for good absorption of the beneficial factors like immunoglobulins present in colostrum. In addition, while chewing, the secretion of immunoglobulins by the salivary glands is reinforced.

Each Tablet contains:

Ingredient	Quantity per Tablet
Colostrum	400 mg
Lactase	10 mg
Protease	10 mg
