Healthy Wealthy Wise

ForCit

Suggested Dosage:

Adult: 1 Capsule twice a day before meals or as directed by physician

Obesity is recognized as a chronic disease in all countries. This is a great health concern because excess body fat leads to a higher risk of diseases.

Over weight and obesity are the results of several factors. For each individual, body weight is determined by a combination of genetic, metabolic, behavioral, environmental, cultural and socioeconomic influences. For the vast majority of individuals however, overweight and obesity are the results of excess calorie consumption and/or inadequate physical activity. Weight management means keeping body weight at a healthy level.

ForCit is a botanical weight management formula composed of ForsLean®* (*Coleus forskohlii* extract), GarCitrin®* (*Garcinia cambogia* extract with Garcinol) and BioPerine®* (*Piper nigrum* extract). The composition of ForCit is aimed at overcoming the shortcomings of individual botanical ingredients, facilitating their actions by synergy and improved bioavailability to the target tissues and cells.

ForCit, a proprietary blend, contains an advanced spectrum of natural ingredients that work synergistically to support satiety, lean body mass, and a healthy body composition, with a beneficial impact on healthy body weight management.

*This is a traditional preparation to be taken with a balanced diet and regular exercise

Each capsule contains:
