

# Gacotene™

NATURE'S OWN CAROTENOID BLEND

60 count  
Vegetarian Soft Capsules

## BENEFITS

- Most bioavailable form of lycopene and  $\beta$ -carotene found in nature
- Provides antioxidant protection
- Protects from age related diseases

# Gacotene™

**Suggested Dosage:**  
Adult: 1 Capsule once daily  
after meals or as directed by  
a doctor or pharmacist

Gacotene™ Soft Capsules is obtained from *Momordica cochinchinensis*, commonly known as “GAC” and standardized to contain a minimum of 10% Lycopene and 10%  $\beta$ -carotene.

Lycopene is a red plant pigment found in tomatoes, apricots, watermelons, guavas, papaya, grape fruits and rosehips, with tomatoes being the largest contributor to the dietary intake of humans until GAC from Vietnam was made available to the world.

Traditionally, GAC has been used as both food and medicine. Due to its nutritional value, intake of this fruit may greatly enhance the nutritive value of the diet.

Gacotene™ is an antioxidant with Lycopene and  $\beta$ -carotene. It has been demonstrated that supplementation of lycopene with  $\beta$ -carotene and lutein can significantly decrease oxidative DNA damage to human lymphocytes.

**Each soft capsule contains:**

Ingredient	Quantity per Capsule
<i>Momordica cochinchinensis</i> extract from red membrane of seed (Standardized to Not Less Than 10% Lycopene and Not Less Than 10% $\beta$ -Carotene) (Gacotene™)	150 mg
