

Picrorrhiza Plus

HEALTHY LIVER SUPPORT

60 Count
Vegetarian Capsules

gras
Generally Recognized As Safe

Curcumin C³ Complex[®] and BioPerine[®]
are U.S.A. GRAS self Affirmed ingredients

BENEFITS

- Helps maintain healthy liver functions
- Supports body's natural mechanism to eliminate toxins
- Protects the liver from hepatotoxins
- Supports metabolic process leading to sustained energy levels and stamina

Picrorrhiza Plus

Suggested Dosage:
 Adult: 1 Capsule twice a day before meals or as directed by a physician

The liver is both the largest internal organ and the largest gland in the human body. It carries out different functions designed to maintain a favorable internal environment in the body (metabolic homeostasis) and helps to protect against infections.

The pivotal involvement of the liver is in cleansing blood from the gut (considered to be the richest source of oxidants and toxins in the body). Its central role in intermediary metabolism and detoxification processes imposes high risk for exposure to injurious substances, infectious agents, toxic adducts and oxidizing substrates. It also helps with hormonal balance, fat regulation and digestion.

It is essential to maintain a good, well-balanced diet and a healthy lifestyle in order to protect the liver. Body cleansing and detoxification helps rid the body of accumulated harmful substances that exert a negative effect on the health of an individual.

The ingredients of Picrorrhiza Plus have been chosen with care to offer a comprehensive and holistic support to hepato-protection. It is a judicious blend of ingredients that can be used to provide antioxidant support as well as body detoxification by maintaining healthy liver functions.

Each capsule contains:

Ingredient	Quantity per Capsule
<i>Silybum marianum</i> seed extract	100 mg
